

ANNOUNCEMENT OF GRANTS

**for the calendar year 2024
(§§ 63-67 Study Support Act)**

The SFU receives annual funding from the Federal Ministry of Education, Science and Research for the award of scholarships. They are used to support unfinished scientific theses in master's/master's and doctoral/PhD programs. The thesis must not yet be approved, but the studies should be completed in the foreseeable future. The description of the work must indicate that it involves **special expense**. The supervisor's report must indicate that the thesis is likely to be **completed with above-average success**.

A funding scholarship amounts to at least 750 euros.

Funding is provided for expenses that are closely related to the scientific work in terms of time and content (to be proven exclusively with original receipts), such as:

- Travel expenses for stays abroad
- Extensive literature search
- Empirical surveys

There is no financial support for:

- Living expenses
- Costs for the physical preparation of the work, such as typing and binding, copying and telephone costs
- Expenses for general work equipment, such as PC or paper consumption

APPLICATION REQUIREMENTS

Citizenship of an EEA member state or equal status with a national (§ 4 StudFG)

You are equal to a national if you:

- have a "Daueraufenthaltskarte EU" (permanent residence card EU)
- are Swiss and have lived in Austria for five years without interruption
- are stateless and
 - => have been subject to unlimited income tax liability in Austria for at least 5 years together with one of your parents prior to your first admission to SFU and
 - => had the center of their life interests here during this period of time
- are a refugee
- are a british citizen

Regular student at SFU

Compliance with the entitlement period (§ 18 StudFG)

- The entitlement period basically comprises the period of study intended for the degree program plus one additional semester.

Study achievements in an ordinary study program

Master's/Master's studies:

- Positive assessment of courses amounting to at least 60 ECTS credits
- Grade point average of at most 1.5

Doctoral Studies in Psychotherapy Science: Very good evaluation of all courses from 1st to 6th semester.

Doctoral Studies in Psychology: Very good evaluation of all courses from 1st to 6th semester and grade point average of at most 1.5
